

Delane Consulting is a premier professional and management consulting firm that provides an award-winning approach to business transformation and improvement services for our Fortune 500 clients across many industries.

We are a nationally certified (EMSDC) minority-owned firm headquartered in the Lehigh Valley of Eastern Pennsylvania with a specific focus on two complementary, best-in-class set of services – Professional Consulting and Talent Management.

Businesses are changing rapidly, and our clients are finding the need of consultancy and training support in areas where they lack core competencies. The Delane team is focused on current and emerging areas of business to fill this gap for our clients.

To complement this effort and to help grow and expand expertise in your organization, Delane is proud to offer Agile Training, Jira Training, and our monthly Delane Lean Business Agility (DLBA) Webinar.

Training & Certifications

Training and certification courses are available for various class sizes, and we offer several different solutions (channels) to supplement your corporate offerings.

We offer:

Delane will not only train newly transformed teams but more importantly coach them throughout their transformation to guarantee a sustainable and long-lasting change.

Agile Training

Instructor-led, 1 or 2- Day training that goes beyond the basic understanding of Agile. We dive into (DLBA) Delane Lean Business Agility Framework, application, and implementation of this methodology into the company's culture and individual projects.

Key Benefits

- Learn the fundamentals of the Agile methodologies.
- Understand Product Discovery
- Uncover the value of Portfolio Management
- Learn about industry best practices, & more

Jira Training

Our course will help new users and novices alike glean a better understanding of Atlassian's powerful issue management software and align with industry best practices to enable business agility with their teams.

Key Benefits

- Introduce users to Jira and demystify the terminology.
- Build confidence using and navigating Jira.
- Understand and establish baseline success factors.
- Align with industry best practices and standards.
- Identify and enable key drivers for success and cross-team alignment

DLBA Webinar

Our monthly webinars feature deep-dive discussions around crowdsourced topics, industry-adopted best practices, opportunities to connect with professionals from various industries, and introductions to the key pillars that drive successful adoption of lean and agile practices.
