

Delane Consulting and Talent Management is a premier professional and business management consulting firm that provides an award-winning approach to business transformation and operational excellence services for our Fortune 500 clients across many industries.

We are a nationally certified (EMSDC) minority-owned firm headquartered in the Lehigh Valley of Eastern Pennsylvania with a specific focus on two complementary, best-in-class, set of services- Professional Consulting and Talent Management.

Efficiency matters! Organizations with efficient capacity management and optimized business operations will excel in providing the best quality to customers while reducing lead time and enabling cost reduction opportunities.

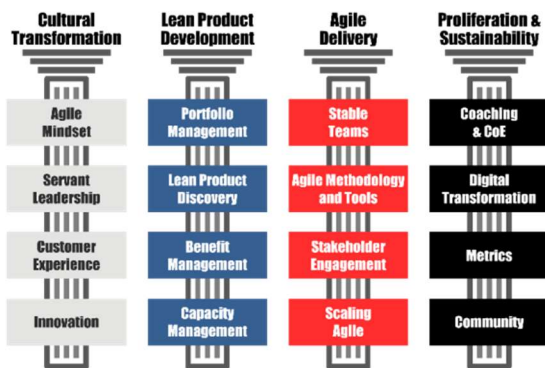

We have helped many organizations achieve similar levels of operational excellence thanks to our Delane Lean Business Agility (DLBA) practice.

Delane Lean Business Agility (DLBA)

Delane offers a holistic and scalable approach encompassing four critical focus areas –Pillars of Business Agility – that guarantee a successful journey towards achieving sustainable Business Transformation.

Together, we call it “The 4X4 of Business Agility”:

- Culture Transformation
- Lean Product Development
- Agile Delivery
- Proliferation & Sustainability

Delane Lean Business Agility (DLBA)

Our award-winning DLBA Framework combines industry proven concepts across Lean Product Development, Design Thinking, Change Management, and Agile Delivery to help organizations achieve high levels of operational excellence and set the pace in a rapidly-changing competitive landscape.

Whether you lead Product Management, Financial Services, IT Development, Marketing or Communications within your organization, our DLBA Framework will help enable successful transformation efforts while adapting to the unique needs of your customers and corporate strategies.

To complement this effort, we offer instructor-led **Training and Webinars** to enhance your Project Management skills with our **Agile & JIRA** training.
